MATERIAL SAFETY DATA SHEET

Aller-911 Shampoo for Dogs and Cats

EMERGENCY OVERVIEW

Physical State: Liquid **Color:** Pale Yellow **Flammability:** Not flammable

Hazard Rankings

	HMIS	NFPA
Health Hazard	0	0
Fire Hazard	0	0
Reactivity	0	0

DATE PREPARED/REVISED: April 18, 2012. To be revised on or before 4/18/2015.

PREPARED BY: Eric Revere

NOTE: This product is designed to be used as a shampoo for dogs and cats. It is not expected to present any specific hazards to humans who apply it or to their animals when used as directed. It is not intended for use on humans.

SECTION 1: PRODUCT IDENTIFICATION

Product Name: Aller-911 Shampoo

Product Description: Dog and cat shampoo

Generic Description: Consumer product for households with companion animals

SECTION 2: HAZARDOUS INGREDIENTS

This product does not contain any ingredients defined by OSHA Hazard Communication Standard 29CFR 1910.1200 considered hazardous to humans or animals.

Emergency Overview: It may present a very slight hazard to humans and animals as a eye irritant.

Inhalation: Because this is a liquid product, accidental inhalation is extremely improbable.

Eye: May cause slight eye irritation with no damage occurring if removed immediately.

Ingestion: Do not induce vomiting if product is accidentally ingested. Give plenty of water to dilute. Seek medical help.

Skin: A small number of animals and humans may be sensitive or allergic to one or more components of this product.

Target Organs: Eyes, skin and digestive system

Signs and Symptoms of Over-exposure: Symptoms of skin overexposure or sensitivity may include itching, redness, edema, drying, defatting and dermatitis. Accidental ingestion may cause stomach distress, nausea, vomiting or diarrhea.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Proprietary mixture – contains less than 1% of a mixture of Tea Tree Oil, Rosemary Oil and Lavender Oil in a base of cleansing surfactants commonly used in shampoo products.

SECTION 4: FIRST AID MEASURES

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

If in Eyes • Immediately flush with plenty of water. Remove contact lenses. Get medical attention if irritation persists after thorough rinsing.

If Swallowed • Give 1-2 glasses of water. If person is unconscious, do not give anything by mouth and do not induce vomiting. Get medical attention.

If on Skin • This is a shampoo designed to be used on the skin and coats of animals. It should be rinsed off thoroughly following label instructions. Seek medical attention if any irritation develops and persists.

Note to Physician: Treat symptomatically.

SECTION 5: FIRE FIGHTING MEASURES

Flammability Classification (29 CFR 1910.1200): Non flammable liquid.

General Hazard: None known. Product will neither burn nor support combustion.

Extinguishing Media: Water, CO₂, or regular foam. Direct water spray may cause foaming.

SECTION 6: ACCIDENTAL RELEASE, SPILL, LEAK MEASURES

General: Spills may present a slip hazard. Keep unnecessary personnel away from spill. Do not walk through spilled material without equipment specified in Sections 7 and 8. Handle spilled material with appropriate protective gloves and clothing.

Land Spills: Absorb spills with non-reactive absorbent and place in suitable covered and labeled containers. Prevent large spills from entering sewers or waterways. Contact emergency services for advice on handling and disposal of large spills.

Water Spills: This product may cause localized contamination of surrounding waters if runoff is not preventable and quantity of spill is large. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge.

SECTION 7: HANDLING AND STORAGE

Storage: Store this product in original packaging in temperature-controlled environment at less than 100°F. Do not transfer to other containers unless disposing of damaged containers or cleaning spills. Prolonged storage at elevated temperatures above 110°F may cause degradation of ingredients and performance loss of product. Store containers upright and closed. Do not store where children or animals may gain access.

Handling: No special precautions are needed. Wear rubber gloves and eye protection when cleaning up small spills (not more than 1 gallon). Dilute only with water and do not mix with other chemicals.

Other Precautions: None special

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Inhalation: No respiratory protection required when used according to label directions. Very large spills (larger than 5 gallons) that occur in a closed environment at high ambient temperatures (well above 100°F) may exceed hazard limits and NIOSH/MSHA certified organic vapor respirators must be used.

Occupational Exposure Limits: Not applicable.

General Hygiene Considerations: Wash hands thoroughly after handling. Remove and wash contaminated clothing before reuse.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Color: Pale yellow

Odor: Herbal aromatic

Physical State: Liquid

Boiling Point: 212°F

Melting Point: N/A – liquid product

Specific Gravity: 1.00

Flash Point: >212°F

Flammable Limits: Not flammable

Auto-ignition Temperature: N/A

Solubility in Water: Fully soluble in all proportions

pH: 6.0 – 7.0

Evaporation Rate: Not available

Volatile Organic Compound (VOC) Content: Less than 3%

SECTION 10: REGULATORY INFORMATION

RCRA: Not listed as a hazardous waste.

EPA: Not regulated by EPA.

EPA Superfund: CERCLA/SARA. Not listed.

Safe Drinking Water Act: No components listed.

IARC: Proprietary mixture. Not listed.

OSHA Carcinogen: No

California Proposition 65: No components listed.

Federal Food, Drug and Cosmetic Act: Not a food, drug or cosmetic regulated by the FDA.

TSCA: Components listed on TSCA inventory.

SECTION 11: TOXICOLOGICAL INFORMATION

Ingestion (Acute Oral Toxicity): Not available

Skin (Acute Dermal Toxicity): Not available

Primary Skin Irritation Index: Not available

Eye: Not available

Inhalation: Not available

Carcinogenicity: Not available

Reproductive Toxicity: Not available

Developmental Toxicity: Not available

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity

Plants: Not available

Fish: Not available

Persistence/Degradation: Not available. Biodegradability is expected.

Soil Mobility: Not available

Section 13: Disposal Considerations

Do not contaminate water, food or feed by storage or disposal.

Storage: Store containers in a cool place (less than 100°F).

Product Disposal: Small quantities of product can usually be disposed of at municipal landfill sites.

No special disposal treatment is required. Avoid dispersion of large quantities of spilled material to soil, waterways, drains or street storm water runoff. Refer to state and local regulations for applicable site-specific requirements. Tonnage quantities are not recommended for landfill disposal.

Container Disposal: Plastic container: Rinse, then offer for recycling or reconditioning.

SECTION 14: TRANSPORT INFORMATION

US DOT Shipping Classification: ORM-D, Consumer Commodity

DOT Hazardous Substances Classification: Not regulated as a DOT Hazardous Material.

Other Shipping Information: Bill of Lading Description – Drugs, Chemicals, Medicines, Toilet Preparations, NOI, in bulk, barrels, boxes, kits, pails or packaged containers. (NMFC 60000, Class 70).

SECTION 15: STABILITY AND REACTIVITY

Stability: Stable. Under normal conditions of storage and use, hazardous polymerization will not occur.

Conditions to Avoid: None specific.

Incompatible Materials: Strong oxidizing and reducing agents, acids and bases.

Hazardous Decomposition Products: Carbon monoxide, carbon dioxide may be generated by thermal decomposition under fire conditions.

Possibility of Hazardous Reactions: Will not undergo hazardous polymerization.

SECTION 16: OTHER INFORMATION

NFPA 704: National Fire Protection Association

Health – 0

Fire – 0

Reactivity – 0

Naturvet Aller-911 Shampoo is not a flammable or combustible liquid. It presents no unusual hazard if involved in a fire. Care should be taken to minimize the amount of spilled product released to the environment to avoid any unknown ecological effects. It does NOT contain and is NOT manufactured with any of the Class I or II ozone-depleting substances listed under the United States Clean Air Act of 1990.

PACKAGING: Naturvet Aller-911 Shampoo is packaged in recyclable plastic containers.

Disclaimer of Liability

The information contained herein is, to the best of the originator or manufacturer's knowledge and belief, accurate and reliable as of the date of preparation of this document. This product is intended for use by households or users of companion animal products. It is not intended for commercial, institutional or industrial use. The purpose of this MSDS is to provide information to manufacturing, warehouse, transport and emergency response personnel concerned with the making, shipping, handling, storing or cleanup of relatively large quantities of this product. Alteration of its composition or characteristics by concentration, evaporation, mixing with other substances, or other misuse may present hazards not specifically addressed herein and which are beyond the control of the manufacturer or distributor are disavowed. These data are offered in good faith as typical values and not as product specifications. No expressed or implied warranty is hereby made. The data and recommended industrial hygiene and safe handling procedures are believed to be generally applicable and are obtained by testing and from available scientific and safety sources. This product should be transported and stored following precautions declared on this MSDS. This MSDS is to be used only for this product. Upon shipment of this product from manufacturer's warehouse utilizing transport not owned or operated by manufacturer,

the conditions of handling, storage, use and disposal of this product are beyond control of manufacturer and may be beyond manufacturer's knowledge. For this and other reasons, manufacturer assumes no responsibility and expressly disclaims liability for loss, damage, fines or other expenses arising out of, or in any way connected with, handling, storage, use or disposal of the product employing unsafe or unlawful practices.
